

Have a Cold One.

INNOVATIVE COLD SPRAY TECHNOLOGY FROM ASB

Refresh your equipment with a crisp, clean, ultra-pure cold spray coating from ASB, North America's comprehensive provider. With ongoing production and parameter development, ASB's advanced cold spray process generates a wider range of coating properties and characteristics. All to ensure optimal performance and a better value.

However unique your project, ASB has the experience and expertise to develop a one-of-a-kind solution. In fact, we are the single source for everything from part repair and analysis of the processing environment to evaluation and application of thermal spray, welding and finishing.

For more information, contact the surface experts at ASB now. And get a taste of what ASB Industries can do for you.
